3rd EFCAP Congress

Young Offenders and Victims
Forensic Psychiatry and Psychology for
Children, Adolescents and Young Adults

7 – 9 March 2012 // Berlin, Germany

www.efcap2012.de

WELCOME ADDRESS

Dear EFCAP members,

dear colleagues, interested in forensic psychology and psychiatry in children, adolescents and young adults in Europe,

the 3rd EFCAP Congress will be held in Berlin, Germany, from 7 – 9 March 2012. On behalf of the European Association for Forensic Child and Adolescent Psychiatry, Psychology and other involved Professions, we warmly invite you to join us in Berlin and be part of this congress that discusses specialized topics in the field of forensic psychology and psychiatry.

As in Germany the legal framework defines a group of young adults that is dealt with in shared responsibility of adult psychiatrists as well as child and adolescents psychiatrists, we decided to focus on both groups: adolescents and young adults.

The main theme of the congress “Young Offenders and Victims – Forensic Psychiatry and Psychology in Children, Adolescents and Young Adults” reflects a broad discussion, held world wide, on traumatic influences and transgenerational cycles of violence. At the same time we want to focus more on studies and expertises on young victims. In Germany during the last year a public debate on child sexual abuse in educational institutions and in many other fields has started and sexual violence among adolescents is one of the highly debated topics.

The congress will take place at the newly restored Langenbeck-Virchow House, which was re-opened on 1 October 2005 by the German Surgery Association and the Berlin Medical Association. The building, which was first inaugurated in 1915, is now once again available to professional associations as a centre for medicine. The auditorium now has 500 seats and stretches over three floors. With the restoration complete, the auditorium is now resplendent in its former glory, and, together with further seminar rooms, represents an ideal location for scientific meetings and congresses.

We hope that we were able to peak your interest in the 3rd EFCAP Congress and look forward to welcoming you in Berlin in March 2012.

Warm regards,

Prof. Dr. Jörg M. Fegert
Congress President
