

## 25 years

### Echinococcosis Science Ulm

Over 25 years the echinococcosis related research plays an important role at the Ulm University. The Department for General and Visceral Surgery (Med. Director: Prof. Dr. D. Henne-Bruns) the Department for Internal Medicine I (Med. Director: Prof. Dr. T. Seufferlein) and the Department for Internal Medicine III (Med. Director: Prof. Dr. H. Döhner, Head of Division for Infectious Diseases: Dr. B. Grüner) organized in the jubilee year of the 50th year of the University of Ulm the II. International Echinococcosis Meeting Ulm.

We were able to recruit internationally renowned physicians and echinococcosis scientists for the meeting. We look forward to welcoming you in Ulm.
